

Summer Reading for U of M Anatomy & Physiology:

For Tri I, you will be required to read a book, and complete an assignment about the book on the FIRST day of class!

Choose one of the following:

“*When the Air Hits Your Brain*” Frank Vertosick (probably the fav of everybody!)

“*Stiff: The Curious Lives of Human Cadavers*” Mary Roach (my personal fav)

“*Corpse: Nature, Forensics, and the Struggle to Pinpoint Time of Death*” Jessica Snyder Sachs (makes you think about how un-true the CSI / Law & Order shows are!)

There are limited numbers of these books in the LMC; I believe ½ Price Books and Amazon will also have them!

Tri II: “*In Defense of Food*” Michael Pollan This will also involve a health-care project, which will be shown and presented at conferences mid-tri January!
